## WHAT WE ARE **PROPOSING** *INVEST IN OUR PLAYERS*

We are committed to scouting talented players from across Nigeria and neighboring countries to participate in European and Asian competitions, with the potential to generate over 100% returns on our investments.

In recent years, numerous Nigerian league teams—particularly in Division 3—have seen substantial financial success by investing in taking players abroad for tournaments and friendly matches. Many of these clubs achieved returns exceeding 200% by opening doors for young players to showcase their skills on an international stage, attracting sponsorships and lucrative opportunities for transfers.

This category of investment is uniquely structured to deliver timely profits, with investors typically seeing returns within a few months and, at most, within a year. By supporting this venture, investors can benefit not only from the financial returns but also from being part of the journey to elevate African talent on the global stage.

# **INVEST IN OUR FOOTBALL ACADEMY**

In Africa, many parents have a strong desire for their children to combine football with formal education, seeking a balanced path where talent development goes hand-in-hand with academic growth. This growing demand has made investment in football academies in Nigeria highly profitable, as academies that offer both sports and educational programs are rare. By catering to this dual focus, investors can tap into a valuable market that supports the ambitions of young athletes and their families, positioning themselves in a niche with high potential for returns.

Here's a list of essential facilities for a well-rounded football academy:

1. Training Grounds
2. Classrooms and Video Analysis Rooms
3. Locker Rooms
4. Medical and Physiotherapy Room
5. Gym and Fitness Center
6. Accommodation and Dining Hall
7. Administration and Coaches' Offices
8. Equipment Storage
9. Spectator Area
10. Parking and Transportation Facilities
11. Media and Press Room
12. Rehabilitation and Recovery Center\*\* (optional but beneficial)

This combination of facilities will create an environment that supports player development, health, and performance while ensuring the smooth operation of the academy.
